DKI Jakarta

A dedicated and adaptable Back End Developer with a strong foundation in JavaScript, Node.js, and database management systems like MongoDB and PostgreSQL. I have professional experience in developing secure systems, enhancing user experiences, and leading small teams to deliver new features. My training from renowned bootcamps, such as ZettaCamp and BINAR Academy, has equipped me with practical skills in backend technologies, including Express.js, GraphQL, and Sequelize. I thrive in collaborative environments that support innovation and continuous learning, and I am eager to contribute to challenging roles that encourage both personal and professional growth.
